

Case Studies in Chemical and Environmental Engineering

Dear colleagues,
I'm glad to introduce the new Elsevier Journal *Case Studies in Chemical and Environmental Engineering* (CSCEE), which I'm proud to be Associate Editor.

Case Studies in Chemical and Environmental Engineering is a new online only, open access, peer reviewed journal. *Case Studies in Chemical and Environmental Engineering* focuses upon 8 main aspects of Chemical and Environmental Engineering: Water, Air, Soil, One Health, Resource Recovery, Biotechnology, Energy, and Chemical Manufacturing. Our journal is proud to be associated with the below top journals, sharing many of their top editors on our editorial board.

Editorial Team

Co Editors-in-Chief

Dr. Damià Barceló,

Institute of Environmental Assessment and Water Research, Spain

Professor Duc Long Nghiem,
University of Technology Sydney, Australia

Associate Editors

Dr. Satinder Kaur Brar,

York University, Toronto, Ontario, Canada

Dr. Maite Pijuan, PhD

Catalan Institute of Investigation of Water, Girona, Spain

Our journal would be pleased to accept any short-format paper that provides a much needed conversation between industry and academia, allowing focussed and succinct papers that easily-digestible, easily understood and applicable to a variety of individuals working within chemical engineering and for the good of the environment.

We are pleased to share with you our progress in three of our current special issues, which are all Open Access and thus free to download:

Special Issue on COVID19

Case Studies and Technological Solutions of Macro and MicroPlastic Pollution in Coastal Waters, Rivers, Soils and Sediments

Greening the 21st century environmental engineering – A robust platform to mitigate contaminants of emerging concern

As Associate Editor and on behalf of the Editorial Board, I encourage you to consider CSCEE in the future.

Please feel free to contact me if you have any questions or any ideas for a paper.

Best wishes,
